

**Your motivation to work in the social sector. (50 - 100 words)**

I always get immense happiness whenever I do various social work be it random acts of kindness , ngo visits with NSS or celebrating my birthday with HIV +ve orphan kids etc . That day automatically becomes a great day . I will be more than happy to work in the social sector and do good to the world

**Skills have you acquired over the time (Technical, communication, interpersonal, etc.)**

I promised myself if I cleared JEE in 2017 I will clean and transform a garbage dump of my area . luckily I was fortunate enough to have kept my promise  
I organised/managed the clean up event which was one of my teenage dream project . we painted ,graffiti on the wall etc. I learnt communication skills in that process which helped me gain the support of local parshad .  
I have done many random acts of kindness eg going to my local police station and thanking them for their service along with sweets. That helped me come out of my comfort zone .

**Your interests (Sports, Cultural etc.)**

Sports -Swimming, Running , Squash , Badminton  
Listening English pop music  
Spreading happiness  
Chemistry  
Singing  
Travelling  
Cycling
